- Innovation
- Team Work

VISION AND MISSION

OUR VISION

To become the ICT partner of choice for medium to large organisations in Nigeria and Africa at large. To provide the full ICT support services, but have a physical presence in key spots where customers can receive on-site assistance.

OUR MISSION

To provide quality ICT support and solutions from skilled and professional staff for medium to large businesses nationwide. We aim to be proactive, ensuring that infrastructure is set up correctly and services are aligned to the ICT needs of clients, and assisting them in their day-to-day requirements.

Homel ICT Solutions

OUR GOALS

The goals and objectives of Homel are:

- To effectively bridge the knowledge divide created by lack of proper information technology practice.
- To reduce considerably, capital flight due to purchase of software licenses, intellectual property rights and importation of information sciences and technology from developed nations.
- Deliver true and measurable value providing specialized information technology services to the Nigerian Government and the African space through the execution of projects under our PPP model.
- Improve the nation's economy by encouraging and driving the culture of locally produced high technology solutions and services adopting global standards and industry best practices, thereby diversifying the nation's revenue generation strength which is currently polarized and at risk.
- Focus on improving standards in information technology consumption and use (integrations and middleware services) in Nigeria and Africa.

Homel ICT Solutions
